

FLYING PIG 26TH-MILE (OR MORE) EVENT

Congratulations on your commitment to Be Smart, Eat Well and Move More! This program is designed to promote a lifetime of healthy habits.

Your goal is to walk, jog, run or wheelchair the distance of a marathon (26.2 miles) or more in the months leading up to the Cincinnati Flying Pig Marathon in May.

TRACK YOUR MILES

Using the HOG LOG, track each mile you complete toward your marathon goal. Miles can be done at school or with family and/or friends. Always pick a safe place and never go out alone.

FINISH IN PIG-STYLE

What better way to celebrate your hard work and many Hog-Logged miles than by crossing the real marathon finish "swine" in one of the Flying Pig Marathon Saturday May 5th events?

- 10K (must be 12 years of age by race day)
- 5K (no age requirement)
- Kids' Marathon 26th Mile (1 mile, untimed event for Kids' Marathon program participants grades K-6th but no age limit enforced)
- Flying Piglet Dash (short, age-group fun runs starting with the diapered crawlers up to 9 year olds)

To Register for any Flying Pig Marathon event, go to www.flyingpigmarathon.com. Remember to select your school or group when prompted. Find nutrition tips, reading resources and more on our website under the Kids Marathon Event Page!

NUTRITION CHALLENGES

Eating well is so important to being healthy. You need the right nutrients from the right foods to be a strong and healthy athlete. Just like setting goals for reaching marathon distance, you can set goals for good nutrition, too.

We have set 4 Nutrition Challenges as your daily goals. Try to reach each of these goals as often as you can.

Rethink Your Drink!

Avoid soda & sweetened drinks. Stay hydrated with healthier choices like water, milk, and 100% juices. **I drank only healthy beverages today.**

Focus On Fruits And Veggies!

Fruits and vegetables offer awesome sources of vitamins, minerals and other nutrients. Try something new...you might like it! **I tried 3 fruits and/or veggies today.**

Go For The WHOLE Grain!

Grains provide our main energy source for the body and brain. Get the ultimate fuel by eating breads, cereal and grain products that are **WHOLE. I had at least 1 WHOLE grain today.**

Get Calcium!

Building strong bones and muscle takes calcium. Low and non-fat milk, yogurt and cheese are excellent sources. **I got 3 servings of calcium-rich foods today.**

Exercise Your Brain!

Get your brain some healthy food too. **Read (or be read to) an additional 15 minutes above your usual.**

Register for
The Flying Pig Kids' Marathon
 26th Mile
